To Rob Anderson  
Humphreys Data

From Kelly Jagger

Dear Rob

We would like to thank you and the team for carrying out a last minute request. You not only said this would not be a problem but you delivered the scanned data for me, which saved me a great deal of time and stress.

The quality of the images were amazing and to see how amazed Mr and Mrs McCue were on their anniversary was fantastic. Even though some of the pictures were just about holding together. Plus it scored me and my sister no end of brownie points and my brother's shock to see that the long lost baby pictures had been saved for ever.

Yes the scanning service is great for capturing memories but it is also a must for those companies who have limited storage and important documents that need to be kept secure but accessed easily.

We would recommend you to everyone we work with and look forward to using you again soon.

Kelly Jagger
